

User Manual

A02 No Bark Collar

Please read the user's manual before using.

0.3.0.02.A02000-14-10

Thanks for purchasing!

The A02 No Bark Collar is designed to let dogs live safely, happily and get along with people more harmoniously.

⚠ WARNING Do not use with aggressive dogs.

Aggressive dogs can cause severe injury and even death to their owner and others. If you are unsure whether this product is appropriate for your dog, please consult your veterinarian or certified trainer.

⚠ CAUTION Safety on-leash training.

It is vitally important that you and your dog remain safe while learning on-leash training. Your dog should be on a strong leash, long enough for him to attempt to chase an object, but short enough for him not to reach a road or other unsafe area. You must also be physically strong enough to restrain your dog when he tries to chase.

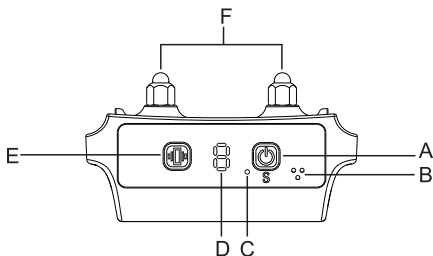

CAUTION Risk of skin damage.

Please read and follow the instructions in this manual. Proper fit of the collar is important. A collar worn for too long or made too tight on the pet's neck may cause skin damage ranging from redness to pressure ulcers. This condition is commonly known as bed sores.

- Avoid leaving the collar on the dog for more than 12 hours per day.
- If possible please change the collar position on the pet's neck every 1 to 2 hours.
- Never connect a lead to the electronic collar, it will cause excessive pressure on the contacts.

- If rash or sore found, stop using the collar until the skin healed.
- Please take the pet to see your veterinarian.
- This product is not a toy, please keep away from children.
- This product is only applied for healthy dog.

Overview

No Bark Collar

- A . On/Off Button & Sensitivity Adjust
- B . Sensor
- C . LED Indicator Light
- D . LED Display
- E . Vibration Setting Button
- F .Contact Points

Setting Up the Product

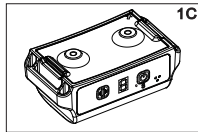

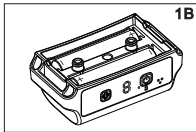

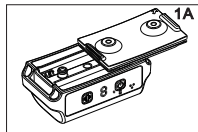

Before using the Collar, you must set up the collar by following steps:

1. Prepare the Collar--Install batteries on the A02 No Bark Collar. (page 4)
2. Function test--test function of buttons before wearing it on the dog. (page 6)
3. Fit the collar on dog, then turn it on. (page 8)

Install batteries on the Collar

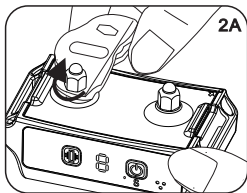

1. Take out the battery cover from the back of the collar (1A).
2. Install the batteries according to the engraved mark, negative (-) first, positive(+) next(1B).
3. Push the battery cover back (1C).

- ⚠CAUTION**
1. New and old alkaline batteries and Other batteries can not be mixed, can not recharging for the alkaline batteries.
 2. If do not use the collar long time.
Please take out the alkaline battery.

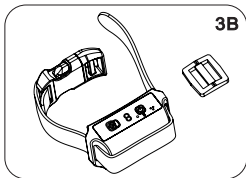

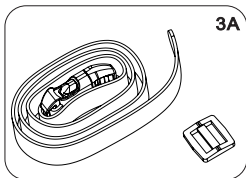

Prepare the Collar

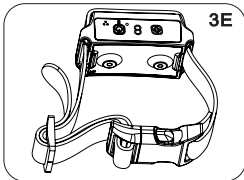

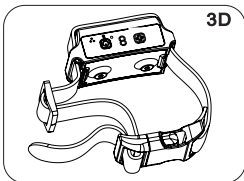

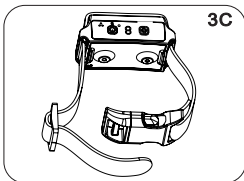

1. Take out the two contact points from the accessories, insert them into the ports of the collar, rotate clockwise to tighten them(2A).

Assembly Collar

1. Unhitch the nylon belt and take off the Slide Buckle(3A).
2. Thread the nylon belt through the Receiver(3B).
3. Thread the nylon belt through the Slide Buckle(3C).
4. Thread the nylon belt through the Side Release Buckle(3D).
5. Thread the excess nylon belt through the Slide Buckle to make sure that your collar is securely tight(3E).

Turn on the Collar

- Press the On/Off Button and the LED Display on.
- The LED Display on and indicates the No Bark Collar is ready to detect dog barking.

Turn off the Collar

- Press and hold the On/Off Button until the LED Display off (This takes approximately 3 seconds).

NOTE: To extend the endurance of the battery, please turn off the collar when not in working mode.

Function Test

1. Install batteries into the bark collar and turn it on.
2. Press and hold the Vibration setting button for 3 seconds to enter test model. The LED display shows “” and flashes every 0.5 seconds.

3. Shout “Wo, Wo” to MIC sensor B, Then the buzzer will beep and the vibration will shake.
4. Press and hold the Vibration setting button for 3 seconds. It will exit from test mode to standby mode.

Work instruction

After power on, the led display shows the current value, the indicator light flashes in green every 4 seconds, if the indicator light flashes in red every 4 seconds it means the device is low battery.

Select A02 bark collar working mode:

- On the collar standby mode:
- Press On/Off button, LED display shows 1-2-3 to adjust the sensitivity, the highest level is 3.
- Press vibration adjust button ,LED display 0-1-2-3-4-5-6-7-8-A to adjust the vibration level , the highest level is 8 .
- LED displays 0, means no vibration output .
- LED displays A, means the collar in intelligent automatically working mode. The collar starts at the lowest correction level and increase the intensity with each successive bark until the bark stops, each 80 seconds as a cycle. The current correction value becomes the vibration level for the next bark detected. Once your dog has learned to reduce the barking, the initial warning corrections will automatically reduced.

NOTE: As a built-in safety feature, if your dog barks 11 times or more than 80 seconds, the collar will automatically shut off for 1 minute.

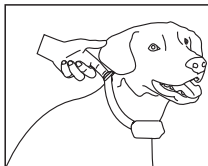

Collar Fitting

Please fit the collar properly to avoid over tight for the dog. When properly fitted, you could put a finger between the collar and the dog's neck.

Too loose: The collar will move around the dog's neck, thus the Vibration stimulation can not work effectively.

Too tight: It may cause injury for the dog skin and make the dog breathe difficulty.

Caution: 1.Before collar fitting , please turn it off. Make sure the collar is properly fitted, then turn on the Collar. Do not shave the pet's neck as this may increase the risk of skin injury.
2.The collar should not be worn for more than 12 hours per day. Or it may cause skin irritation.

Device Information

Product Specification

| | |
|--------------------------------|----------------------------|
| Battery Type | AAA(LR03) battery |
| Battery Endurance(typical use) | 11 days |
| Waterproof Rainproof | IEC 60529 IPX5,rainproof |
| Operating Temperature | From 0-40°C(from 32-104°F) |
